Our Mission, Vision, and Values

The following mission, vision and values statements were generated as part of a formal Strategic Planning process facilitated by Wayfinding Partners in early 2021. You can read more about that process on our website: <https://artandfeminism.org/initiatives/current-initiatives/strategic-planning/>. Our original values statement can be accessed here [2019 Art+Feminism Statement of Values](#).

Mission Statement

Art+Feminism builds a community of activists that is committed to closing information gaps related to gender, feminism, and the arts, beginning with Wikipedia.

Vision

Art+Feminism envisions an internet that reflects diverse global histories of art-making, where communities who have most often been written out of history feel welcome and empowered to participate in writing (and righting) our stories

Values

- We believe in the power of **the arts**. We believe that art is fundamental to flourishing, open societies.
 - We are a community of **many feminisms**. We believe in their collective power to challenge oppressive structures and create new, liberating ones.
 - We **create safer and braver spaces** that are caring, equitable, pro-Black, queer and trans-affirming, intentional about accessibility and all-around anti-oppressive. We find **joy in our community**, knowing it will sustain us in our work.
 - We commit to **knowledge sharing and creation on a global scale**, highlighting voices and stories which are often unheard. We also embrace our own **learning and unlearning** of knowledge so that we may dream of new ways of being and doing, individually and collectively.
